

SHARAFAT SHAMS

Full-Stack Web Developer · PHP · Laravel · React · Vue.js · MySQL

4A Dhanmondi, Dhaka | 01774379688 | sharafatshams.j@gmail.com | linkedin.com/in/sharafat-shams-511a0117b | github.com/theShams-J

PROFESSIONAL SUMMARY

Dedicated Full-Stack Developer with a strong foundation in **PHP, Laravel, React, and Vue.js**. Transitioning from an impactful career in education and volunteer management, I bring a unique combination of technical coding proficiency and high-level project coordination skills. Experienced in building database-driven applications (HMS, Rental Management) and passionate about developing scalable, user-centric web solutions. A quick learner and team player committed to technical excellence.

TECHNICAL SKILLS

Programming & Web Development

Languages: PHP (Expert), JavaScript (ES6+), SQL

Frameworks: Laravel (MVC & API), React.js, Vue.js

Database & Architecture: MySQL (Schema Design, Query Optimization), RESTful API Design

CMS: WordPress (Customization & Plugin Development)

Computer Proficiency & Office Automation

Office Suite: MS Word (Document Formatting & Reports), MS Excel (Data Analysis & Spreadsheet Management)

Environment & Tools: Windows OS Management, Git/GitHub, Postman (API Testing), XAMPP

Core Fundamentals: Computer Hardware/Software Troubleshooting, File Management, System Configuration

KEY SOFTWARE PROJECTS

Shams Rental Management System (RMS) | *Laravel 12 · Vue 3 · MySQL — Multi-Tenant SaaS Application*

- Architected a full-stack multi-tenant SaaS platform with Role-Based Access Control (RBAC) for Super Admins, Admins, and Tenants using Laravel 12 REST API and Vue 3 frontend
- Implemented Sanctum token-based authentication with role-scoped route middleware returning structured JSON 401/403 responses
- Built a HasCompanyScope trait across all Eloquent models to enforce strict company-level data isolation in a shared database architecture
- Developed complete CRUD modules for Buildings, Apartments, Tenants, Leases, Invoices, and Money Receipts with paginated data tables
- Designed reusable Vue 3 component library (FormCard, RmsTextInput, RmsSelectInput, RmsPagination) with a consistent green/gold luxury theme
- Implemented lease lifecycle management — creating a lease marks the apartment Occupied; terminating it resets it to Available automatically

Apartment Rental Management System | *Laravel MVC · MySQL*

- Developed a multi-tenant module with RBAC for Super Admins, Admins, and Tenants on Laravel's MVC architecture
- Built custom role and permission middleware for tenant data isolation with company-scoped Eloquent models
- Implemented automated rent invoicing, money receipt generation, and a centralized dashboard for real-time occupancy and transaction tracking

Retail Management System — Full-Stack | *React · Laravel · MySQL*

- Built a full-stack retail solution with a Laravel backend and React frontend for a dynamic, high-performance user experience
- Managed inventory lifecycles, real-time low-stock alerts, and comprehensive sales reporting modules
- Optimized Eloquent ORM queries and database indexing to handle high-volume transactional data efficiently

Retail Management System — Decoupled API | *React · Core PHP · MySQL*

- Designed a decoupled architecture with a React SPA frontend consuming a custom-built RESTful API in Core PHP
- Implemented asynchronous data fetching, client-side state management, and structured JSON API responses
- Hardened API security through custom endpoint validation and input sanitization in Core PHP

Retail Management System — Monolithic | *Core PHP · MySQL*

- Developed a complete retail application using procedural and OOP PHP without any framework
- Built modules for Point-of-Sale (POS), supplier management, and inventory tracking
- Engineered a custom MVC-like routing and database abstraction layer from scratch

PROFESSIONAL EXPERIENCE

Intellect Software Ltd. | **Trainee Programmer**

Jun 2025 – Present

- Contributed to full-stack web development and debugging across 5+ client-facing projects using PHP and Laravel
- Performed system testing and quality assurance across multiple release cycles, identifying and resolving 20+ bugs
- Provided direct client support, translating technical issues into actionable solutions and improving customer satisfaction

Zoom Bangladesh School | **Teacher**

2022 – 2026

- Delivered curriculum across 5 grade levels to 100+ students annually, maintaining a structured and positive learning environment
- **Best Teacher Award (2023)** — recognized for teaching excellence out of 20+ staff members, driving measurable improvements in student engagement

Zoom Bangla Youth Foundation | **Volunteer Coordinator**

2021 – 2022

- Coordinated teams of 15+ volunteers across multiple community projects, streamlining workflows and documentation
- **Project Management Certification (2021)** — for successful on-time delivery of 3+ community initiatives within scope and budget

PROFESSIONAL TRAINING

Web-Application Development (WDPF) · IsDB-BISEW IT Scholarship Project

- **740+ Hour Intensive Program:** Specializing in PHP/MySQL, Laravel, React, Vue.js, and WordPress
- **40+ Hours Professional Training:** Microsoft Word, Excel (Data Analysis), System Troubleshooting, and Hardware/Software Management

ACADEMIC HISTORY

M.A. in History Dhaka College	Present
B.A. (Hons) in History Dhaka College CGPA: 3.09	2023
H.S.C (Humanities) Kamarpara College GPA: 4.00	2019
S.S.C (Business Studies) Kamarpara P.M Multilateral Institution GPA: 3.45	2017
